It reads—“Sir, I have to request that you will remove my name from the roll of the Bombay Anti-Opium Alliance. For nearly three years back my connection with it has been purely nominal. As you are aware my reason for dissolving even that nominal connection was that the withdrawal qualification or repudiation of the signatures of a number of ecclesiastical men which had been collected by the Alliance had convinced me that India as it is at present is not a country in which an agitation such as that for which the Alliance was started can be pursued to any good purpose. Allow me, in parting, to express my unilateral belief in your personal good faith in the matter of the problem in question.”

WEIGHT IN GOLD.
WEIGHT IN GOLD.

Under date Sept. 21st, 1893, Mr. Hill again writes: "I should like to thank you. Your lengthened absence has done wonders in relieving my terrible cough. Since I had the operation of Tracheotomy (the same as the late Mr. W. H. Smith) I have not been able to speak, eat, drink, or sleep well. But now, I am still alive, perfect as St. Bartholomew's Hospital, no one could possibly have had a more violent cough. It was so bad at times that it quite caused me pain to eat, and yet the most delicate food could not soothe it. And I have been able to get rid of it without difficulty. I am, sir, yours truly, J. Hill."

UTTERLY UNREVIVED.

These above words, written from strict inquiry, it appears that the benefit from using Keating's Cough Lozenges is undoubted. The operation was a specially severe one, and was performed at St. Bartholomew's Hospital. Since the operation the only means of relief is the use of these lozenges. So successful are they that one affords a complete cure, with the exception of the case the throat irritation is intense.

Under date Sept. 21st, 1893, Mr. Hill again writes: "I should like to thank you. Your lengthened absence has done wonders in relieving my terrible cough. Since I had the operation of Tracheotomy (the same as the late Mr. W. H. Smith) I have not been able to speak, eat, drink, or sleep well. But now, I am still alive, perfect as St. Bartholomew's Hospital. Since the operation the only means of relief is the use of these lozenges. So successful are they that one affords a complete cure, with the exception of the case the throat irritation is intense.
